**Consultant Engineers** Electrical Instrumentation Mechanical Control and Automation

Analytical Engineering offers a series of comprehensive support and maintenance package options for all the various build states of the Danalyzer Model 500<sup>®</sup> Process Gas Chromatograph<sup>®</sup> operated with the 2251, 2551 or 2350A Danalyzer<sup>®</sup> controller as detailed below:

# **Retainer fee option**

Client pays a retainer fee per month. Retainer to include:

- One experience and fully equipped Engineer, available within 3-4 days (normally within 24 hrs but not guaranteed unless specified)<sup>1</sup>.
- 24/7 Telephone Support.
- KPI Data to be supplied as required, frequency to be agreed.
- Site time and materials charged additionally in accordance with an agreed rate.
- Client can only use Analytical Engineering for Danalyzer Maintenance.

### No formal contract option, Analytical Engineering attends site

- Should client elect to use Analytical Engineering, we would attend site at a mutually agreed time. Normally this would be within 3-4 days but cannot be guaranteed.
- Analytical Engineering would charge standard rate as applicable at the time<sup>2</sup>.
- Analytical Engineering would charge applicable standard hourly labour rate for telephone support.

Engineering Solutions for the Petroleum Industry Registered Office: 9 Tubb Close, Bicester Oxfordshire, England OX26 2BN Registered number 2880189

## No formal contract option, remote support package

- Analytical Engineering ship to site all test equipment and spares required to complete repairs.
- Analytical Engineering supply remote support to clients' site technician who actually carries out the repair work.
- Analytical Engineering would charge for shipping and hire of our test equipment and spares used. Remote support would be charged in accordance with standard rate<sup>3</sup>.

Our web site, www.analyticaleng.com details all our Danalyzer Maintenance and Support Packages.

#### Footnotes

<sup>1</sup> This option can be tailored to your specific requirements. For example, you may require 24 hr or same day response to site.

<sup>2</sup> Standard rates are subject to change without notice.

<sup>3</sup> Standard rates are subject to change without notice. Please refer to separate sheet detailing this Maintenance Option.
